

STOP WORK POLICY

In line with our Quality, Health, Safety & Environment Policy, Setegap Ventures Petroleum (SVP) is fully committed to ensure safe and healthy work condition for all its employees against any risk or exposure personal to harm, property damage or adverse effects to the environment. It is duty of every personnel to exercise the Stop Work under the following circumstances:

- Work activities impose an immediate danger to life, health and environment.
- When action by an individual or team is in non-compliance with standards and procedures for performing job tasks.
- When worked to be performed is not in accordance with the approved JHA thus imposing unnecessary risk to the task performer.

The implementation of Stop Work Policy has the full support of management. When there is any doubt whether work should stop, employees including consultants and contractors staffs should immediately notify their supervisors on site to conduct assessment on the hazardous situation.
